Home Energy Efficiency: Petition to the Government of Canada

A petition to restore vital support for home energy efficiency evaluations and residential energy conservation retrofits

Whereas:

1. The federal government effectively cancelled the *ecoENERGY Retrofit - Homes* program in March 2010. It was the federal government's flagship program promoting energy conservation and efficiency for Canadian homes
2. The ecoENERGY home retrofit program provided key financial incentives for homeowners evaluating their homes for energy efficiency or upgrading homes with energy-saving improvements
3. Only a single day's notice was given of the program's cancellation, leaving many homeowners and small businesses at a loss
4. Smart investments in home energy efficiency save more money than they cost. Instead of turning its back on energy efficiency, the federal government should help bring the country's housing stock into the 21st Century.

We, the undersigned residents of Canada call upon the Government of Canada to restore funding for the *ecoENERGY Retrofit - Homes* program immediately, or create an equivalent national home energy evaluation and retrofit support program.

Print Name	Signature	Address	Email

PLEASE NOTE: Signatures and addresses must be handwritten originals only. Each signatory must indicate their address. Each petition must be free changes to the text.
